

# Sorting belts NC

Models:

NC 3500 - NC 5500

## Technical description

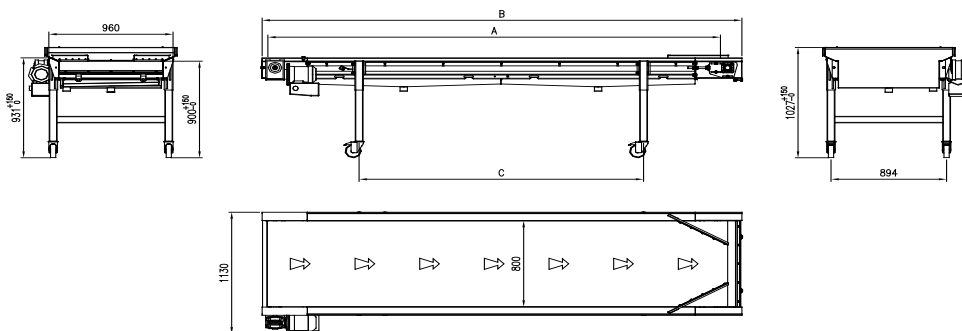

The sorting belts are used for grapes reception and sorting lines: whole bunch, destemmed grapes or mechanically harvested.

The NC 3500 sorting belt is conceived for about 6 persons., while the NC 5500 sorting belt is conceived for about 10 persons instead for whole bunches or destemmed grapes sorting.

The standard sorting belt is equipped with magnetothermic switch with start-stop selector and variable speed electronic drive with Inverter.

Optionally a reception hopper with grid can be mounted on the supporting frame to separate the juice of the loaded grape or a support for manual boxes discharge.

## Drawing NC

## Technical Data NC

		NC 3500	NC 5500					
A	mm	3.500	5.500					
B	mm	3.710	5.710					
C	mm	2.200	3.400					
Installed power	kW	0,75	0,75					
Maximum capacity	ton/h	8	8					

## Options NC

 Available  
 Not available

	NC 3500	NC 5500						
Reception hopper with drainage grid								
Support for manual boxes discharge								

P.S.

The above data is indicative and may vary according to the degree of ripeness, type of grape and filling method. All data refers to initial whole bunch weight prior to any operation like destemming, crushing, maceration, fermentation, etc.
